

# **AI Consultancy for Corporate Training & Development**

**Transforming mid-market companies through enterprise-grade AI training and implementation**

Kevin Meyer & Arhant Mathur

# ***AI Landscape / Opaque, Technical & Overwhelming***

## **Where to Start?**

Unsure where to even begin integrating AI into your business?

## **Too Many Tools?**

Feeling bombarded by new AI tools and jargon daily?

## **Falling Behind?**

Worried about being left behind as competitors embrace new tech?

## **Resource Scarcity?**

Struggling with limited time, budget, and in-house AI expertise?

# ***Business Processes AI Supports***

# **Product Proposals**

**1**

## **AI Training Course**

In-depth, recorded, modular programmes covering AI fundamentals, practical tool usage (e.g., Copilot, Gemini, Canva AI), and strategic implementation. Hands-on exercises, assignments, and a certificate of completion.

**Starting at \$3k**

**2**

## **AI Training Seminar**

Engaging, live sessions (e.g., 2-4 hours) on specific AI topics like "AI for Marketing" or "Boosting Productivity with GenAI." Ideal for executive briefings or team trainings tailored to the business needs.

**Starting at \$6k**

**3**

## **AI Consulting**

Customised solution from AI strategy development to tool integration and workflow optimisation. We identify pain points and implement AI solutions to drive productivity and growth specific to your business needs.

**Negotiable Retainer**

# The Team

***Kevin Meyer***

Ex-Google engineer turned YC founding engineer—Kevin “speaks AI” because he’s shipped ML features at scale and helped startups find product-market fit. He now channels that FAANG-grade expertise into live courses, hands-on seminars, and on-demand training, all tailored to your organisation’s needs.

***kevin@mm-consulting.ai***

***Arhant Mathur***

Ex-BlackRock & Schroders operator who built data-driven roadmaps for billion-dollar products—Arhant knows exactly what enterprises need to make AI stick. He designs our training platform and curriculum infrastructure so that every live session or on-demand module delivers measurable productivity gains.
